Care Instructions:

For prints on hard surfaces (such as glass, mugs, license plates), handle it delicately and refrain from scrubbing. The prints are safe for the top rack of the dishwasher.
For apparel with prints:
• Wash inside out with similar colors on a gentle cycle, using mild detergent and cold water only.
• Avoid rubbing the print and refrain from using fabric softeners, bleach, or harsh chemicals and detergents.
• Hang dry only; do not dry clean, do not iron over prints, or do not wash within 48 hours of customizing.
• It is recommended to wash the item before wearing.

Disclaimer:

- Displayed colours on computer/phone screens may differ from actual prints.
- Approval of the proof signifies verification and agreement with the image, text spelling, logo size, colours, and general positioning. Customers are solely responsible for approvals regarding Copyright, Trademark, and Licensing Agreements of artwork. Once the image is approved, customers authorize us to proceed with printing and are responsible for the full order value.
- For externally supplied products, we are not liable for refunds or replacements for any issues arising during the customization process.
- No refunds or replacements will be issued for approved customized products.
- A minimum deposit of 50% is required for all orders.
- The preferred artwork file is a transparent .png (200+dpi), while vector files (.cdr, .eps, .svg and .ai) must be in RGB mode.
- White color T-shirts, in any style or brand, are usually thinner than other coloured T-shirts.

- For DTG prints, photographs (.jpg) yield optimal results on white T-shirts; other coloured T-shirts may not match the appearance on white ones.
- The allotted ink quantity for DTG printing is a maximum of 5 mL. Designs exceeding this limit will incur an additional cost of \$1.50 per extra ml of ink.
- In DTG printing, a pretreatment solution is applied for white ink on coloured garments, which may cause stain marks. Such marks are normal, typically fading after the first or second wash. No refund or replacement will be provided for this issue, and DTG garments must be washed before wearing to avoid potential discoloration due to pretreatment solution exposure.
- In the event of internal errors or mistakes, if we offer to reprint or fix an order, the customer must return the erroneous garments. Failure to return the garments will void the error correction. Under certain conditions approved by the manager, if the customer opts to keep the replaced erroneous garments, a 50% discount will be applied to the initial order's price. (This condition excludes externally provided garments).
- If an order is placed, paid for, but not printed, it may be refundable under certain conditions before production begins, with a 10% administration and restocking fee. Refunds to the credit/debit card will be processed back with a 4% deduction of the total order price. Fees associated with artwork-related services (e.g., digitization or improvement in the quality of provided artwork) are non-refundable.
